Program Description

Yates County established a 4% occupancy tax program for the purpose of promoting, developing, and protecting the area’s tourism industry. Through this grant program, it was deemed important to establish programs and opportunities to promote or support the development of activities that will increase occupancy in the lodging sector in Yates County. The Tourism Advisory Committee (TAC) was established to act as an advisor to the Yates County Legislature. The TAC reviews the funding requests from tourism agencies and related groups for the upcoming County fiscal year and makes a final recommendation of funding to the Legislature. The ultimate decisions as to the allocation of funds are the responsibility of the Legislature.

Programs and initiatives should help create destination awareness of Yates County as a place to visit and/or improve the likelihood of repeat visits to the area. A key objective for Yates County’s tourism industry is to create and promote products and experiences that will attract more visitors, particularly for overnight visits and in the pre- and post-summer seasons. Grant funds are not intended for facility maintenance or ongoing operational costs, but rather, the funds are intended to be developmental in nature, i.e., for new or enhanced events or marketing activities, as well as planning and pre-development activities for the creation or enhancement of new attractions and destinations.

A portion of the occupancy tax is intended to provide grants for projects that will achieve and/or support the following types of projects:

Event Development and Marketing Projects

- New or enhanced events that are non-duplicative, unique, and demonstrate appeal and outreach to visitors from outside the county; and
- New or enhanced marketing activities aimed at stimulating additional overnight visits to the County preferably in the off-season.
Application and Selection Procedures

Additionally, the application’s financial information should indicate evidence of long-term sustainability for the proposed project.

5. Determination for funding will be based on a project review and ranking by the TAC, County Legislative approval, and the County Administration’s budgeting process.

6. Funding for projects is based on the submitted proposal. If, for any reason, there is an amendment to the proposed project (i.e., cancellation of an event) the TAC must be informed in writing with funding subject to be returned.

7. In the event of approval from the Yate County Legislature for funding of your project for 2021, please be aware of the required contract / agreement for the spending of the tourism funds. Samples available for viewing in advance upon request.
Eligibility Criteria and Restrictions

- Awardees may only receive funding for up to three years for a specific project, and must reapply each year for said funding. Applicants may apply for more than three years of occupancy tax funding; however, only for a new/significantly different project.
- Grant applicants must demonstrate fulfillment of a need in terms of attracting visitors to the area.
- Project awards typically range from $2,500 to $10,000, and will not exceed $10,000.
- Project funding must be matched with a minimum 1 to 1 commitment with at least 50% of the applicant’s match being cash.

Application Ranking Criteria
Each project will be ranked using a scale for specific parameters including those listed below. Ranking will be conducted by the TAC. Projects will then be prioritized for funding based on their score and an averaging of the TAC’s recommended project funding levels based on the following considerations:

For Event Development and Marketing Projects:
- Will the project increase overall visitation to the county?
- Does the project directly or indirectly create overnight visits?
- Will the project increase pre- and/or post-summer season visitation? If not, why is it important as a summer project?
- Does the project emphasize a new or significantly enhanced event or marketing effort rather than simply ongoing operational activities or maintenance?
- Does the project emphasize promotion of niche activities and experiences that will enhance varied and/or new visitor interest in the county?
- Does the project involve collaboration and cooperative efforts among communities, attractions, and events?
- Is the project non-duplicative of currently existing programs?
- Is the project supported by appropriate follow-up capabilities such as staffed phone and/or email for information, a website that is kept up-to-date, effective customer service, and delivery of the promised product, event, or experience?
- Is there a plan for long-term sustainability by the applicant without the county’s assistance?
- Is there a reference to Finger Lakes Countrysides / Yates County Tourism?

For Attraction/Destination Development and Enhancement Projects:
- Is the project aimed at directly developing or making strides in advancing a new or enhanced attraction or destination that is non-duplicative, thereby enhancing the diversity of the County’s tourism assets?
- Does the project fulfill a need or capitalize on an opportunity in the county?
- Is the project aimed at advancing a project or initiative that is anticipated to extend visitor stays and increase overnight visitation?
- Will the project lead to the development/enhancement of attractions or
destinations that increase pre- and/or post-summer season visitation?

• Does the project align with local and regional planning efforts and policies?
• Would the funding request leverage other public and private investment?
• Does the project involve collaboration and cooperative efforts among communities and/or other tourism partners?

The project ranking process and presentations will occur in August/September of the application year, after which time a recommendation will be made by the TAC to the Yates County Legislature for their consideration and final determination. Award notifications will be sent out in November/December.

**Tracking/Reporting**

• Funded organizations must provide a summary report at the conclusion of the project, demonstrating that the grant awardee fulfilled the project scope and itemizing how Occupancy Tax revenues were spent, to the TAC, by December 31 of the project year.

• The financial report will be accompanied by a description of project accomplishments, including any quantifiable results relevant to the original application and the Application Ranking Criteria listed above, including a photo either of the event or project, or that represents your organization.
