

Yates County Airport Council

October 29, 2019

Present: Rich Leppert (Seneca Flight), Paul Middlebrook (At Large), Bill Middlebrook (PY Aero), Doug Marchionda Sr. (PY Flying Cub), Tim Dennis (Yates County), Allison Lia (Passero), Bryan Savage (Passero), Taylor Fitch (Marketing), Doug Paddock (Yates County)

Minutes of the September 24, 2019 meeting were approved.

The financial report was accepted.

Seneca Report: There are three vacant t-hangars. The poles to the non-directional beacon are still in question. Control of wildlife on the airport is being conducted.

Passero report: We are still waiting for the scheduling of the FAA conference call. With regard to the Environmental Assessment and the proposed taxi way for runway 10-28, Tim Dennis will reach out to the affected property owners. There has been contact with Bob Elliot of the Village of Penn Yan regarding the disposal of deicing solution. They will be able to receive the material. There may be a need to store it and dispense as they can handle it. Passero will be marking the trees to be removed for obstruction removal this week. The sewer extension draft design is in hand. Passero was not consulted on this design. The bids for the project will be released on Nov. 4 and be returned on Dec. 2. It is expected the project will start early in 2020. There was discussion on the ACIP with the deice project and obstruction removal slated for 2020.

Meeting adjourned.
