

Accessible Electronic Absentee Ballot Application

For persons who are visually impaired or otherwise disabled, an accessible electronic absentee ballot application is available on line. There are two options.

1. For a New York State Board of Elections portal that will generate a completed application and sent to the Yates County Board of Elections: <https://absenteeballot.elections.ny.gov/home/accessible>. This approach is the easiest. When the application is forwarded by the State to Yates County you will be sent an accessible ballot by email on or after September 21st. Envelopes to seal the ballot and return the sealed ballot will be furnished by postal mail.
2. For a downloadable Accessible Absentee Ballot Application with Instructions, go to: <https://www.elections.ny.gov/NYSBOE/download/voting/NYAccessibleElectronicAbsBallotApp.pdf>. When completed, the form may be sent to the Yates County Board of Elections at: boardofelections@yatescounty.org. Alternatively, the form may be mailed to Yates County BOE, Room 1124, County Office Building, 417 Liberty Street, Penn Yan, NY 14527. An accessible ballot will be sent by email, and envelopes for sealing and returning the marked ballot will be furnished by postal mail.
