1. The claimant will receive the name, address and phone number of at least five [5] providers. The providers must be located within a reasonable distance from the claimant's home or work. The network must provide the claimant with all providers if there are fewer than five [5] within a reasonable distance.
2. The test must be scheduled and performed within five [5] business days of the request. If the network asks the carrier to approve the test, it must still be performed within five [5] business days of the request from claimant's doctor.
3. The claimant may select *any* network provider to perform the test.
4. The claimant may discuss with his or her doctor which provider to choose.
5. The claimant should share this notice with all of his or her doctors.
6. The claimant does not have to use a network provider under these circumstances:
 - a. The provider can't schedule the test within five [5] business days.
 - b. The carrier has challenged (controverted) or will controvert the claim.
 - c. In a medical emergency.
 - d. For x-rays taken during an office visit and used for diagnosis and treatment of: fractures, possible fractures, joint dislocations, tumors, infections, loosening of surgical implants, dislocation of prosthetic joints, spinal instability, or follow-up to surgery.
7. If the carrier doesn't provide the required notice, the carrier must pay for tests outside of the network.
8. On written request, the network will provide the actual test film, data or digital images to the claimant's doctor. These items will be sent to the claimant's doctor with the report or within three [3] business days of receipt of the written request. A doctor may order a second test from the network for the purpose of obtaining an accurate diagnosis as set forth in the Medical Treatment Guidelines if the quality of the test is inadequate.
9. The claimant is entitled to reimbursement for reasonable travel costs to and from the provider.
